## Intended Date of Establishment, Mission and Campus Location

### Intended Date of Establishment

We aim to open a new prefectural university by April 2018, to open up a new era of Nagano Prefecture.

### Mission of the University

In response to a need of the times, we will developmentally reorganize Nagano Prefectural College and establish a new four-year university.

We will train students to have a **global outlook** and create **innovation** in local communities. They will become leaders with flexible ideas and communication skills, contributing to these local communities in the present-day world where local communities can be directly connected to the rest of the world.

As a **base of knowledge and innovation**, the university will connect local communities with Industry-Academia-Government, promoting mutual collaboration. The university will become the core of vitality in the area.

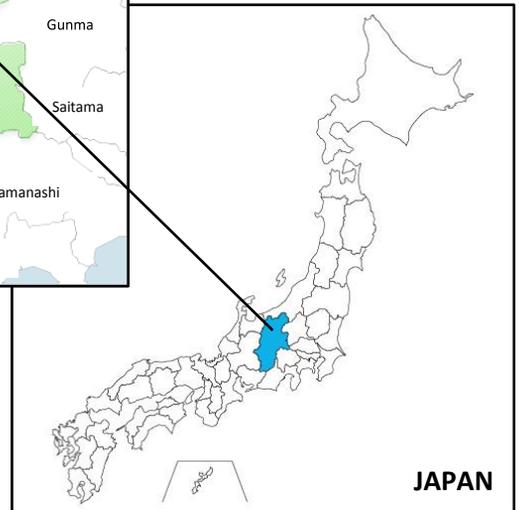

Responding to the desire of local people to continue to learn, we offer an educational environment where they can **continue to learn for a lifetime**. We aim to revive Nagano as a prefecture of education again.
