

Ten Disaster Prevention Rules

1. Secure safety for yourself first.

2. Put out any fires at once!

3. Secure the way for exit.

4. Evacuate, carefully watching your step.

5. Call your neighbors while evacuating.

6. Minimize your belongings.

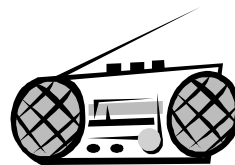

7. Keep away from narrow roads, fences, and rivers.

8. Stay alert of landslides.

9. Offer a helping hand to emergency medical staff.

10. Stay tuned (to the radio, etc.) for the most accurate information available.
